What Assima offers :

Content creation is not an easy task, as there are varying factors to be included in the process, such as team size, content amount, subject/topic at hand, audience's knowledge, business goals, and strategies. Before creating any learning content, the author(s) - who could be an experienced teacher or a manager in charge of providing the training sessions - has to keep in mind the following:

- **International working environment**

Offering international opportunities through working on projects across the globe

- **Innovative & high-tech outlook**

Young and agile R&D team in a highly innovative environment,

- **Trained people & the supportive environment**

Offering professional training to improve employee skills in an environment where individual contribution counts

- **Human scale**

To ensure smooth communication between Business Units and proximity with your Manager

The world's largest organizations like IBM, Siemens, BP, British Airways, nPower, Toyota, Emirates, TD Bank, Wells Fargo, HSBC, National Bank of Canada, UBS, Morgan Stanley, GlaxoSmithKline, United Health Care, Cigna, Aetna, Baxter, Novartis, Philips, and HSBC trust Assima to maximize performance, minimize errors, reduce costs and increase revenue.
