
Assima Awarded New General Services Administration (GSA Schedule) Contract

Announcement

ATLANTA, February 7, 2022 – Assima, a global leader in systems training and [digital transformation](#), announced today that it has been awarded the GSA Schedule Information Technology 70 contract as a small business for its cloud-based SaaS products and supporting Professional Services by the General Services Administration (GSA). This will streamline the procurement process and help government agencies harness the unique capabilities of its flagship SaaS Systems Training Platform, [Digital Adoption Platform](#), and professional services.

Federal, state, and local agencies now have direct access to Assima's full set of offerings on the GSA Advantage website at: <http://www.gsaadvantage.gov>. The GSA 5-year multiple award schedule is the latest achievement for Assima, adding to its recent [contract award by the City of Fort Worth](#) and showcasing the teams' continued commitment to the government sector.

GSA Schedule is a long-term governmentwide contract providing federal, state, and local government buyers access to millions of commercial products and services at volume discount pricing. Companies that meet the government's rigorous standards are typically seen as preferred providers of services and solutions. In addition, Assima's status as a small business enables the federal government and prime contractors to meet socioeconomic goals.

"We couldn't be more thrilled to make our solutions and professional services available through the GSA program", stated Riz Khaliq, Assima's Chief Executive Officer. "Being a pre-approved vendor reduces the procurement challenges for government clients and helps us both focus our efforts on unlocking the full value of business-critical software and upskilling their workforce."

"We can now extend the benefits of our patented solution, more cost-efficiency, and 20 years of expertise collaborating with large enterprise customers to now include Federal Government Agencies, as well as state and local governments.", added Mike Brazarol, Head of US Government Solutions at Assima.

As a GSA Schedule 70 vendor, Assima can provide government agencies with services such as content development, consulting, maintenance and support.

Assima's products and services are offered under the Special Item Numbers 511210 (Software Licenses), 518210C (Cloud and Cloud-Related IT Professional Services).
